

BASIC SHIPPING: MARITIME LAW & SHIP MANAGEMENT

Sale & Purchase – Chartering – Operations

OBJECTIVE

The purpose of this 1 day course is to give the participants knowledge and understanding of basic legal problems regarding the, ship & crew, sale and purchase of newbuilding and secondhand. We also look at how to operate vessels in a global, commercial environment and present the complexity of chartering with the different risks associated with the execution, i.e. legal, and operational risks. We will also introduce various types of charter parties.

- | TOPICS TO BE DISCUSSED | |
|--------------------------|-------------------------------------------|
| ▪ Ship Types & Trades | ▪ Ship Management |
| ▪ Ship Registration/Flag | ▪ Deployment of Ships and Charter Parties |
| ▪ Ship Classification | ▪ Risks & Liabilities |
| ▪ Ship Sale & Purchase | ▪ Practical Case Work |
| ▪ Basic Maritime Law | ▪ Discussion |

TARGET GROUP

The course is for all employees in the shipping industry, those working in related industries, as well as those taking an interest in shipping and who are eager to understand the basic legal aspects of buying, selling and chartering of ships. Our ambition is to develop an understanding of how legal and commercial demands interplay as a foundation for a well-organized chartering and operation.

This knowledge is valuable for a variety of employees. Whether you work within ship management, chartering, finance & accounting, or other functions within the maritime industry cluster, such as classification, banking, P&I, H&M insurance, etcetera.
